There must have been a Iisunderstanding between Mr. Hatsila and us that he _;had considered enlisting us to subscription list. When he visited us in this ' past spring we talked about sharing sone helpful information.

It is our sincere desire, of course, to support your activities in the . anti-apartheid lovenent in whatever way we can for we are deeply concerned about ,tgyout people and your struggle. We also need to have inforlation sources for gout gesearch work. To our regret, however, we are not financially established latithe,lonent.

Everybody outside the country thinks Korea has lade a liraclous econonic progress and we are fairly well off. The reality about the grassroot people are quite the contrary. The grassroot conlunities are struggling even 3forisurVlval

At any rate, we hope that you would so kindly understand about our situation and be assured of our coalitlent to the solidarity in your struggles in ways He can. He have just translated the TOKOLOSH into Korean language to raise people,s consciousness about your situation. We also write articles in different periadicles for the same purpose.

Though unable to make a formal subscription, we hope that through Hr.

.Hats ila there could be some kind of channel be established to share sone informative documents or other souces to help us with writings.
