

## AFRICAN NATIONAL CONGRESS

of South-Africa

Afrikkalainen kansalliskongressi

26/2/90.

Admin Secretary  
Health Secretariate  
African National Congress  
Lusaka.

Dear Comrade,

re: VLTL project for Dakawa Clinic as discussed  
with you & Pen when I was in Lusaka.

1. Enclosed is a copy of the correspondence/project  
faxed by Zakes from Zimbabwe. I forwarded it  
to VLTL (Union of Employees in State Enterprises  
and Institutions).
2. VLTL have agreed to support the Dakawa Clinic  
for the next 3 yr phase: 1990-1992. In the first  
3 yr phase (1987-89) they supplied an ambulance  
& some medicines.
3. They want to visit Dakawa to make an on-  
the-spot assessment and determine with us what  
is exactly required. Bear in mind that they  
collect only 40% of funds amongst their members  
and the other 60% comes from Finnida. It is  
therefore vital that we avoid overlap in our  
requests.
4. Please indicate by telex when the visit to  
Dakawa should take place? Who the contact is  
there? and whether a representative of the  
Secretariate can be on hand (this would be  
very useful).

...../2

5. They have suggested a visit in April. The summer months (June - August) are not possible as most people are on holiday in Finland.

Your earliest views would be highly appreciated.

Respectfully,

M. Hussein .

M. Hussein  
Chief Rep.

---

PS: Apologies for not having time to properly type this letter.

Afrikkalainen kansalliskongressi

28th March 1990

The Co-ordinator  
ANC Development Centre  
Dakawa

Dear Comrade,  
Please be advised of the visit of Jouni Koskinen of VLTL to  
Dakawa to discuss continued support for the Health Centre there.

VLTL is the Finnish Union of Employees in State Enterprises and  
has already supplied the Centre with an ambulance and medicines.

Jouni arrives on Friday 20th April, Swissair 06.25am, and will  
call at the Dar Office to arrange for transport to Dakawa or  
Mazimbu, depending on where he is accommodated. Marjatta Lahti,  
currently in Finland, informs she is likely to be in Dar over  
this particular weekend and is willing to assist in this regard.

This visit has been approved by the Health Secretariate at HQ,  
which also informs that Dr. Pren Naicker from the Secretariate  
has been delegated to participate in discussions starting on the  
23rd of April. It is envisaged the visit will last 3-4 days,  
giving our guest time to also acquaint himself with the overall  
development of Mazimbu and Dakawa. He will be writing a report  
for all the members of his Union and we hope a suitable program  
can be arranged. It would be appreciated too if a member of the  
photolab could be on hand to provide photographs.

The Dar Office has been telexed(copy enclosed) all passport  
details for the necessary clearance to both Mazimbu and Dakawa  
for the period 21/4 - 27/4/90, although he will most likely  
complete his mission before the 27th.

By copy of this letter to the departments/authorities below we  
inform and request their cooperation to ensure a smooth and  
productive visit.

AMANDLA!

Mohamed Hussein  
Chief Representative.

Dear Comrades,

re: VLTL/Jouni Koskinen visit to Mazimbu/Dakawa 23-26 April 1990

VLTL is very dissatisfied with the outcome of the above trip. According to Koskinen, he was only allowed into Mazimbu on Wednesday (he arrived in Morogoro on Sunday) and only a short visit to Dakawa - "one hour" - was arranged to get acquainted with their project. They feel, given the time and expense involved, that the visit not very productive.

I would appreciate some clarification as to precisely what went wrong, given the fact that all relevant departments were timeously and adequately informed of the visit and its purpose.

In the meantime, VLTL has agreed to purchase goods for the Dakawa Clinic during 1990 to the value of 70 000 Finnish Marks (16 000 USD). They stipulate that our list should not include any drugs (they are aware of Finnida's role in this regard), neither are they in a position to supply another ambulance or a motor vehicle. Matters would be greatly facilitated if the list reaches this office before the end of August.

The drugs they have already ordered based on previous lists will be shipped in August/September this year.

Dear Comrade Mohamed,

Re: VLTL visit to East Africa

Apologies for delay in reply to your letter dated 12.06.90. Being the one who met with comrade Koskinen, the Health Secretariat thought it best for me to give you a report upon my return. I only returned from various other missions abroad a few days ago.

I must say that I was very embarrassed to find that comrade Koskinen's clearance was "sabotaged" by a local PRO officer in Mazimbu. There is a long complicated story to this which I will not go into in this letter.

Except, to say that the clearances for both comrade Koskinen and the Finnida Consultant (whose arrangements to visit Mazimbu and Dakawa were made separately and without the knowledge of the Health Secretariat) had to eventually be processed by the Chief Rep. himself. You will understand I was not in a position to explain these details to the visitors.

I however did try my best to make them both comfortable and draw up a visit programme with our head of the East Africa regional health team, comrade Jimmy Mabaso.

2/...

To my surprise I learned from your letter that the VLTL has now changed its mind about using the USD 16,000.00 allocated for 1990 on an ambulance. We had agreed with comrade Koskinen on this and we even talked of processing a proforma through your office. Similarly, the same approach was agreed with the Finnida Consultant viz. that we could purchase drugs and Lab equipment (if available) in Tanzania through processing a proforma from the medical stores there. I'm now made to understand that Finnida wants to purchase all items in Finland. Is this true? Then, why had the Finnida Consultant in Tanzania misinformed me?

Anyway, I did apologise for all the inconveniences caused and on their departure, I was left with the distinct impression that their visit was a success.

About comrade Koskinen's visit to Dakawa being short, I suppose there's not much to see in terms of our clinic there. Its small. This part was handled totally by comrade Jimmy Mabaso.

Frankly, I don't remember hearing any complaints after the visit.

Please convey our apologies once again.

Regards.

Amandla!  
Maatla!

1. finnida has set aside 10 000 fim to repair ambulance. embassy informed.
2. no funds set aside for local purchase of drugs this year as 3 shipments being sent by air to dar: one should have arrived 22nd oct and two will be there in dec. pls chk with embassy.
3. drug list for 1991 (given to me by tex) handed to pren in lusaka to include in overall request.
4. vltil given your letter of apology and list of requirements which i received from pren.
5. 3 boxes of drugs from vltil are in container arriving dar 11/12/90. the container destined for garment and leather factories. consult marja/veli at dakawa. sending u packing list under separate cover. when rcvd pls acknowledge to (copy me):

S F -00531.  
HELSINKI.

Dear Comrade,

This is to acknowledge receipt of your letter dated 12.6.90, addressed to the Health Secretariat and copied to us.

We should apologise for what happened to Comrade Jouri Koskiner though this was due to reasons beyond our control. As it is understood we are largely ruled by the laws of the host Government.

Something went wrong with the arrangements and thus delayed in being permitted entry into Mazimbu. This took days before a solution could be obtained. For this we apologised on the spot and we do regret the incidence.

We further telexed Comrade A. Manghezi in Denmark in preparation for his meeting with VLTL members. Please help us to further clarify the issue with them. We are very grateful for their assistance. Please find herein enclosed the list we are sending to them.

AMANDLA!

Dr. E. J. MABASO

The Secretary  
VLTL.

Dear Comrade,

Re: VLTL JOUNI KOSKINEN VISIT TO MAZIMBU/DAKAWA 23-26  
APRIL, 1990.

We hereby forward our sincere apology and deep concern for what happened during the above specified period in relation to Comrade JOUNI KOSKINEN. It is an incidence that is hurting to think about. We should explain that as a National Liberation Movement we have to abide by the rules of the host Government. It is a situation that often brings about some inconveniences.

This incidence is one of those. When Comrade Jouni arrived the Govt sector of Immigration had not co-ordinated with the National Security. This took time to have it sorted out. We hope that this will not be repeated and it also serves as a lesson to us.

It is our deeply felt wish to convey to you our sincere gratitude for all what you did, what you do and what you will be doing for us. These are the meaningful symbols of solidarity between people. When we finally get free and established as a free South Africa we will forever cherish the memories. You have been selflessly assisted us.

Please find herein enclosed the list of goods needed. You should be free to trim the list as it might suit the amount since we are not vested with the knowledge of prices.

Yours Faithfully,

Dr. E. J. Mabaso.

cc. Chief Representative in E.A.
