Dear *Schuy*

The enclosed paper - "South Africa - The Politics of Constitution-Making" from the Washington-based Centre for Strategic Studies (dated May 1991) will be of interest to you.

The paper includes ANC, Government and other Parties' thinking on the Constitutional process and will be interesting background for you prior to the Consultative Conference in SA.

Good luck for the Conference in July;  
Kindly bring all papers of interest when you return.

Yours sincerely,
