Dutch Foundation for the New South Africa (NZA) founded in January 1994, comprises of 8 Political Parties to support the Democratisation Process in South Africa. It was also believed that some form of interaction between Political Parties in the field of Development in the Nederlads and in South Africa was needed.

Dutch Politicians and Political Parties could play a useful role in the process of bringing about democracy in South Africa.

The foundation in consultation with SA groups was prepared to fund concrete proposals **TO FURTHER THE DEMOCRATISATION PROCESS**. Their target group was South African Political Parties who:-

1. (a) heeded the Fundamental Principle of democratisation and was non racial in its party structures etc.

- (d) supports the conduct of fair free and orderly election campaigns.

		1 800.00	

Amount allocation to ANC Electioneering Department (Rosheen Signh) For campaigning and training for elections. Require reporting urgent.

REQUIRE BOTH NARRATIVE AND FINANCIAL REPORTING URGENTLY

Of the +-D.flr million still unutilised for 1994 it was felt by Mr Jacobs of the Foundation that we could initiate a request that unused funds for 1994 be considered for payment of part of the election debts for 1994. Should the board accept to release these funds in view of already expended election funds ANC would account for this.

This proposal would be presented to the NZA Board on the 24 November 1994 to enlist support. However it is an unusual request which may not succeed.

Footnote: We were informed that the Foundation has rejected the motion that the budget we submitted for incurred by during elections would be funded one of the 1994 allocation.

Need to discuss of the monies could not be utilised for 1995 as we had hoped to use funds for 1995 local government elections.

2. FUNDS AVAILABLE FOR STRUCTURING OF THE ORGANISATION

- (a) Execution of Electoral Campaigns.
- (b) Development of expertise to realise democratic objectives through dialogue.
- (c) Creating structures which give impetus to the solution of most important problems in the short run. Housing, Employment, Education. Health care Rural Development etc.

A proposal by RDP/ Policy Division was presented to the Forum for consideration. This proposal focused on co-ordinating the work of the ANC in parliament, in national and provincial ministries and in ANC Constitutional structures at party level.

The Foundation representatives seemed satisfied with the proposals outlined in the ANC presentation it had to be approved by the board.

It was pointed out that the budget though an interim one should exclude logistical costs such as hotel and travel.

It was also suggested that the whole budget be revisited and redrawn taking into account the parameters of aid that could be supported by the Foundation.

Since the ANC had not availed itself to all the funds allocated to it by the foundation for 1994, it was under-utilised by +- 2 million rands. Projects for utilisation of these funds can be submitted for use 1995.

FOUNDATION ALLOCATION FOR 1995 TO THE ANC

Allocation to each party will be based on seats attained at Elections 1994.

ANC share equivalent to 62.8%

Votes attain	=	R6 270.000
National Party 20%	=	1 050.000
IFP	=	220.000
Volks Vront	=	120.000
DP	=	130.000
PAC	=	50.000
ACDP	=	50.000

We should therefore expect +- Df 5 million less 7.5% administration costs allowed to the Foundation and Df250.000 allocated for joint projects or programmes to be undertaken on behalf of all Political Parties - e.g. Joint Conferences, workshops educational programmes, etc.
