RE-AAH 8. VEHICLE THEFT.

It was on Sunday the 5th March, at about 20:30, whilst driving from the direction of our Regiona \$toresnin Soweto, when I was suddenly attacked by three armed men. One pointed an AK - 47 at me, whilst other one was pulling me away from steering-wheel. Before I knew what was happening I was flung on the mud, and the car was driven off at high speen. I was in a confused state, and started running in the opposite direction to look for assistance. Whilst trying to find my way to Lilanda after about an hour, I spotted the red lights of a car stucked in the mud. When I came nearer, I realized it was my vehicle. I then ran to Lilanda to report and look for assistance to tow the caraway. When we eventually reached the spot with two comrades from green-house, I discovered that the spare-wheel was taken, the ignition key, plus the clinic-keys which . were in the ash-tray. I subsequently reported to the Matero Police, and our Transport Department on the mornigg of the 6th March.

Paul Majoe.
