As a South African patriot, I felt that the exhibit will

help publicize the work of the A.N.C. and other progressive forces within South Africa as well as the work of American support groups like the American Committee on Africa and TransAfrica which Seek to promote policies favorable to the liberation of South Africa and Namibia.

A letter of support for this exhibit from you to Dr. Teri

Y. Doke, Director, Afro~American Historical and Cultural
7th and Arch Streets, Philadelphia, PA, 19106, USA, will be greatly appreciated.

Museum,

.

As a South African scholar in exile, I have tried to reuse

the support of students and colleagues in the plight of our people. I was active with Dr. Callistus Ndlovu ~ now Minister in Zimbabwe, â\200\231 in the Southern African Research Association and I am in the process of completing a general history of South Africa entitled Welani Imilambo, which I hepe you will find inspiring and accurate.

I will be willing to give assistance as an educator.

Yours truly,
