## RESISTANCE POSTERS OF THE LAST TEN YEARS

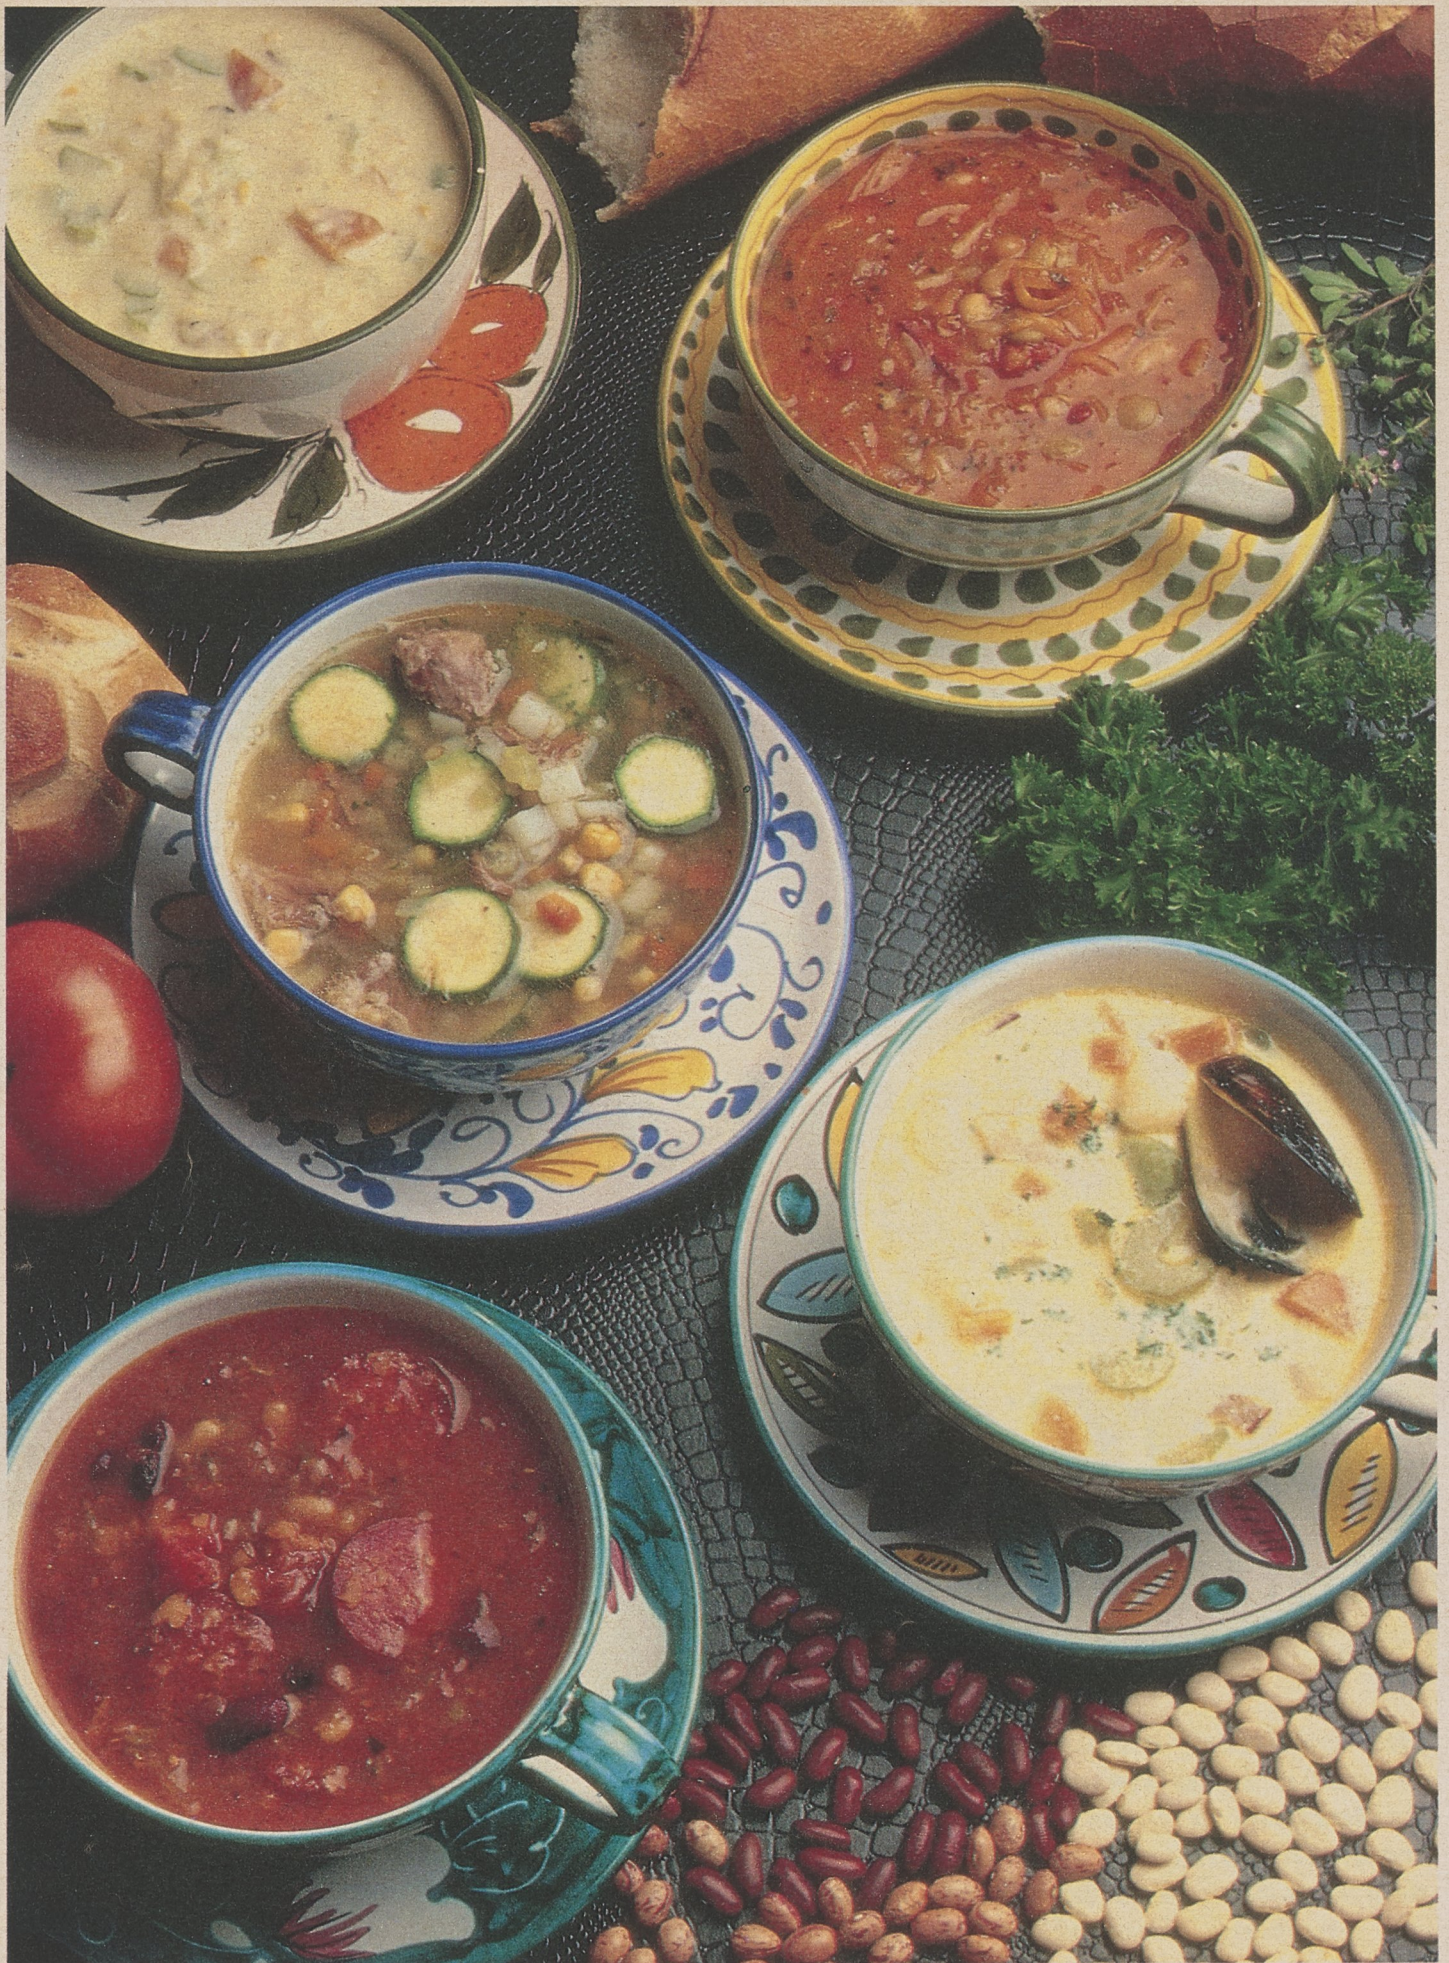

***The political struggles of the 1980s are recalled in a new collection of poster art. Reflecting a grassroots vision, and ranging from the simple to the sophisticated, the posters combine to create a unique record of an exciting and often turbulent time.***

**P**osters have been used in South Africa since the beginning of the century both for advertising and political propaganda purposes.

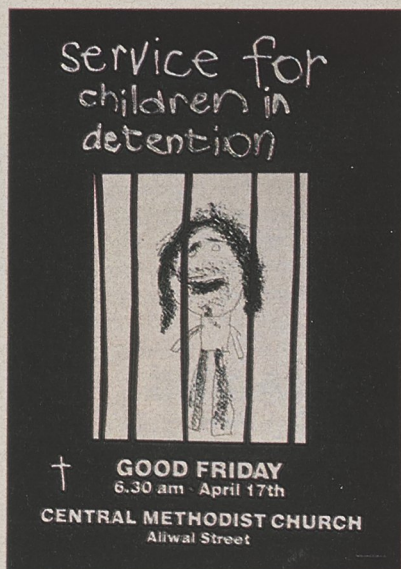

A recently published collection, *Images of Defiance*, reproduces anti-apartheid posters of the 1980s with explanations of the context and techniques.

A wave of resistance posters began in South Africa about 10 years ago with the establishment of poster-making collectives such as the Screen Training

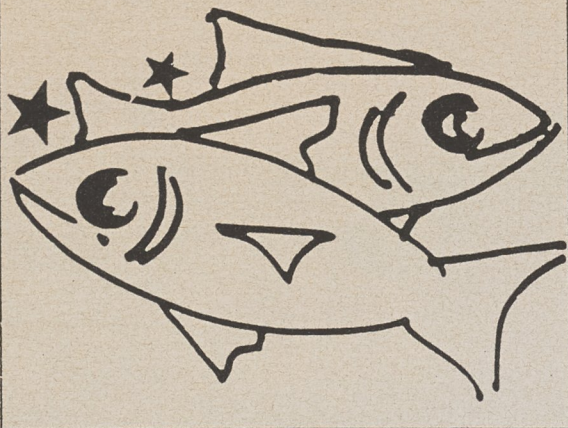

Although political in orientation, many posters use beautiful imagery, colour and symbols which take them

## YOUR MARCH HOROSCOPE

### ARIES

### ARIES

**March 23 – April 22**

Circumstances will toss you around a bit but you should manage to emerge from this period with satisfactory results. Extravagance must be curbed. Resist the urge to spend money on worthless pursuits. Regarding your intimacy, you may have ideas of your own about certain aspects of togetherness and may be inclined to rebel against conditions laid down by your partner.

### TAURUS

**April 23 – May 22**

Whatever progress you achieve in your business and personal activities will come about through your ability to cope with challenges and yet make the utmost of your opportunities. You must guard against energy depletion. As long as you control your ego, do not take love and praise for granted and avidly demonstrate your feelings for your partner, romance will be fulfilling.

### GEMINI

**May 23 – June 22**

Opportunities are about to rise in your business status, earning power, or both. React cleverly and timeously because such a chance may not come around again. With Venus now positioned opposite your zodiacal sign, you are prone to disagreements which may mar your partnership.

### CANCER

**June 23 – July 22**

Feel free to look forward to a largely successful session in

which lucky breaks will come your way. The more you apply yourself to your plans and undertakings, the luckier you will be.

### LEO

**July 23 – August 22**

Now is the time to advance your ambitions by setting up meetings with the right people, and you should get good responses to your requests. Strife will hit one or two of your relationships but, fortunately, not your love interests. A most fulfilling round of love and pleasure is indicated provided you focus lovingly and attentively on your partnership and cater to your sweetheart's desires.

### VIRGO

**August 23 – September 22**

Although you have a good trend going for you as far as commercial ambitions and social trends are concerned, do not allow yourself to get too excited because some of your arrangements are liable suddenly to come unstuck. Handle all aspects of love carefully and sympathetically.

### LIBRA

**September 23 – October 22**

Personal and domestic matters proceed satisfactorily but things may become somewhat unsettled at times. You can attain your hopes and wishes. Take good care of your health and your financial matters. Your intimate relationship will go through positive and negative phases. You may have reason to indulge in a serious debate

with your sweetheart but should make up again afterwards.

### SCORPIO

**October 23 – November 22**

Your ability to out-think others should contribute greatly to swift progress in business and personal activities, but take care not to outwit yourself too. You could experience a setback by being overly confident. Have frank discussions with your true love. Honesty is the best policy in matters of the heart and you will get the love and attention you desire if you are direct.

### SAGITTARIUS

**November 23 – December 22**

You may run into strong opposition in your search for financial or career success. However, your strong show of determination will enable you to rise above it and achieve your aims. Your fill of romantic satisfaction definitely favours your star sign.

### CAPRICORN

**December 23 – January 22**

Some stern tests are in store for you in your personal and public activities but indicators suggest that you will notch up impressive success anyway. You must try to get in tune with your sweetheart in order to offset the likelihood of a misunderstanding arising.

### AQUARIUS

**January 23 – February 22**

Although pleasing advances are foreseen in your business and domestic affairs, you must not get too settled because annoyances may materialize and interrupt your progress. Chances are that your romantic aspirations will be realized. With the planet of love, currently aspecting favourably to your part of the zodiac, you must take the initiative to set decisions for your future.

### PISCES

**February 23 – March 22**

Your fortunes will be subject to phases. Although you will make satisfactory headway in several undertakings, you may experience minor annoyances in other projects which serve to slow down your overall progress. The atmosphere in the intimate relationship may be unsettled at times but an application of common sense should resolve difficulties and put romance back in your life.
