Dear Comrade Tikly,  
Having once more addressed ourselves to your letter dated 21February, 1985  
re purchasing arrangements in London, we think that the present arrange-  
ments are going to create confusion.

First of all it was decided that somebody From the Education Committee  
should address her/himself to purchases for SDMAFBU. This, we think  
should still be the case. However, this person should concern her/him-  
self with the purchase of books only as this person shall have knowledge  
of books.

Secondly, since Comrade Manie is a member of the Logistics Committee  
we strongly suggest that he should assist SUMAFCD with logistical  
requirements.

These arrangements we think will be Far better.

Our previous decision on not allowing for a separate banking account  
still stands. Funds that are needed for books shall be made available  
by the London regional treasury.
