## The Rockefeller Foundation

PETER C. GOLDMARK, JR.  
PRESIDENT

TO: Frank Raines  
FROM: Peter C. Goldmark, Jr.  
DATE: July 9, 1990

I talked to Tony Solomon, former head of the New York Fed and asked him to lend advice and assistance, particularly on the issue of the "restructuring window." He is willing and has some interesting and useful approaches.

I told him that Frank Raines is working on this, and I would ask Frank Raines to go pay an early visit to Tony, to draw out his ideas, and if Frank feels comfortable to draw him into the working group.

I have explained to Tony that while he was assisting us with this, he should not be in direct contact with South Africans--that our work is being done in association with the ANC. He understands and agrees.

Tony's number at Warburg in the city is 459-7000; his number in the country is (516) 726-6389.
