14/08/78

14th August, 1978.

Aziz,

re our propaganda projects

1. We had a rather abortive meeting this morning and we have fixed another for Tuesday, September 5th at 10.30 in the basement of the D&A building.
2. COMIC: Can you check with Alex toward the end of this week when he said he would have finished the text for this. It would be helpful if you could circulate it to Meli, Mkhize and Feinberg (perhaps Jill would make copies!).
3. MANDELA leaflet: This should be ready - 5,000 copies - in the last week of August, through Barrie.
4. POSTCARDS: I am including 500 of each in the suitcase for JS. RK originally said we should send Palo 1,000 of each but I think 500 is more appropriate. When I get back I'll take care of the rest of the distribution.
5. MANDELA RECORD: Perhaps you could get your script completed even though we haven't yet got the money for this okayed.
6. New Projects: We discussed the possibility of doing a tape of some of the new songs plus of course a political introduction; we also discussed the possibility of using some of the poetry from the camps in a sort of broadsheet. I have written a note to RK about both of these projects in case he can bring with him suitable material when/if ever he comes back.
7. If you want to call a meeting to discuss these projects further while I'm away, please feel free to do so. I thought at the next proper meeting we should also have a general discussion about distribution, as well as getting everyone's views on the size of the budget we should ask for. But, of course, I'll be guided by you about the advisability of raising these two matters.
