I shall be at home this evening if
I hope the attached is self explanatory.
you would wish me to elaborate on any of the issues.

As I mentioned, I
believe the particular reason that Sir Robin rang me was to ensure that his
views would be properly communicated without interpretation or alteration;
Clearly he feels an immense sense of frustration having spent four years
playing a key role and moving on to the USA when he can no longer see the
fruits of any contribution he has made.
