8. To take forward its exploratory discussion the Working Group appointed a Technical Committee, charged with addressing both details of consensus areas emerging and other areas needing discussion. The reports of the Technical Committee formed the basis of the agreements ultimately reached in the Working Group.

INTRODUCTION TO AGREEMENTS REACHED

9. As will appear from the agreements set out, below, the Working Group was of the opinion that the transition to democracy involves two preliminary stages. The first stage is one during which preparations will be made for the holding of free and fair elections for an elected parliament under an interim constitution with the power to draft in terms of agreed procedures a new constitution and to act as an interim legislature. This stage covers the whole of the period up to and including the holding of the elections. The second stage covers the period from the holding of the elections to the adoption of a new democratic constitution and the installation of a new government in accordance with the provisions of such constitution.

WORKING GROUP 3\CODESA Z\REPORT

BASIC POINTS OF DEPARTURE

13. There is a need for a level playing field and a climate favourable to free and fair elections and free political participation. From this flows the requirement for statutory structures to prepare for the institution of the elected Parliament under an interim constitution, and for these structures to focus on meeting these needs. In this regard particular areas of concern should be identified and there should be councils for the identified areas. Thereafter the tasks of each council should be described as well as the executive powers that it would require in regard to such tasks. It would also be possible for the councils to propose legislation..Since the councils must always act within the law, enabling legislation will be required.

14. It is possible that action may take place or legislation be considered outside the councils defined areas of concern, which may have a negative impact on such areas. Councils should be able to identify these and within their powers require that such actions should not take place or 'legislation not be proceeded with.

15. There should be an overarching council. One of its tasks will be to familiarise itself with events and developments on the broader political scene in government and elsewhere. It will be able to intervene within its terms of reference

â\200\224â\200\224â\200\224_â\200\224_â\200\224_â\200\224_â\200\224__â\200\224

affect the levelling of the political playing field or the

ensuring of a climate favourable to free political
participation.

The terms of reference of the overarching body should be the
facilitation of the transition to democracy including the
levelling of the playing field and the ensuring of a climate
for free political participation and for the conducting of
free and fair elections, while the individual councils
should have the same terms of reference but in specific
fields. The powers, duties and functions vested in the
transitional executive structure must be exercised in a
manner that does not prejudice constitutional options.

TRANSITIONAL EXECUTIVE STRUCTURE

A transitional executive structure will be constituted by
legislation agreed to by Codesa. It will have a multi-party
character and will be vested with effective executive powers
sufficient to fulfil its terms of reference. The structure
will include an overarching council, herein referred to as
the TEC (Transitional Executive Council).

The TEC will have sub-councils which will be given specific
responsibilities in relation to areas of particular concern
during stage one of the transition.

WORKING GROUP 3\CODESA 2\REPORT

POWERS OF THE TEC

19. The TEC will be vested by legislation agreed to by Codesa with powers necessary to enable it to carry out its functions.

20. The TEC will have access to all information (including records of governments and other participants in the TEC) which may be required by it for the purpose of exercising its functions.

21. The subâ\200\224councils will report to the TEC and their decisions will be subject to confirmation/amendment by the TEC.

22. The TEC will be able to delegate powers to the subâ\200\224councils.

23. The TEC will be able â\200\230to initiate or participate in negotiations in relation to issues which arise outside the defined areas of responsibilities of its subâ\200\224councils, if it is of the opinion that such issues could have an impact on the levelling of the playing fields or the creation and maintenance of a climate in which free and fair elections can be conducted.

24. The TEC will be kept informed of and will be able to ask for and be entitled to receive information in regard to proposed legislation including bills, proclamations and regulations, and of executive actions and contemplated executive actions

of all participating governments/administrations that may impact on the levelling of the political playing field and on free political participation.

The TEC will be kept informed of and will be able to ask for and be entitled to receive information in regard to actions and contemplated actions on the part of participating political parties/organisations that may impact on the levelling of the political playing field and on free political participation.

If, when considering a proposed bill, proclamation, regulation or action, the TEC has reason to believe that it will have an adverse impact upon the maintenance of a climate for free political participation and in which free and fair elections can be conducted, or will disturb attempts to level the political playing field, it may in pursuit of its objectives, taking into account its necessity, require the government, administration or party not to proceed with it.

If the government, administration or party concerned is of the opinion that the necessity of the bill, proclamation, regulation or action in its area of application outweighs its adverse impact referred to in paragraph 26, the matter may be referred to the independent election commission.
