Dear Comrade,

Re. Housigg office For a. Motor 9101..

The above office would like to make a. requisition for a. motor Bike.

. The bicycle I was provided with is absolutely mmanageable, the reasons being the type of work I'm doing.

My work demands -that I drive from one area 1:0 another during day-time or during the night, whether it is raining or not raining. This contributed to the comqete disintegratiOH of the bicycle. The roads too contributed as: well.

I would. therefore apjeal to you that the above matter be given serious a attention even before the Directorate meets.

Thanking you in anticipation.

Yours in the year of the Cadre!
