Dear Sir,

RE : SUPERVISION OF ANC HOUSE AT KURASINI PLOT 28

Report of site visits on 11/7/88 and 15/7/88.

11/7/88

1. New building at a stand still. No change from previous report.
2. Old Unit 1.
Nearly all door and window frames in position and some have already been fixed. Chasing walls for electric conduit. Galvanised pipes on site & some plumbing work in progress for water supply.
3. Septic Tank and soak pit in front of unit 1 & 2 are completed except for external plaster which is in progress.
4. Old Unit 2 some window frames being fixed. Walls being chased for plumbing in bathrooms.
5. Some length of reinforcement rods on site.

15/7/88

1. New building front portion of ring/lintel beam casted.
2. Old unit 1. All door and window frames in position and nearly all also fixed. Chasing of walls for electric conduit well advanced more than 50% of conduit has been laid and walls made good. A good portion of the piping work is also completed mainly for water supply.
3. Old unit 2 piping (plumbing) in progress and wall chasing for electrical conduit in progress. Roof tiling still incomplete (no ridge capping).

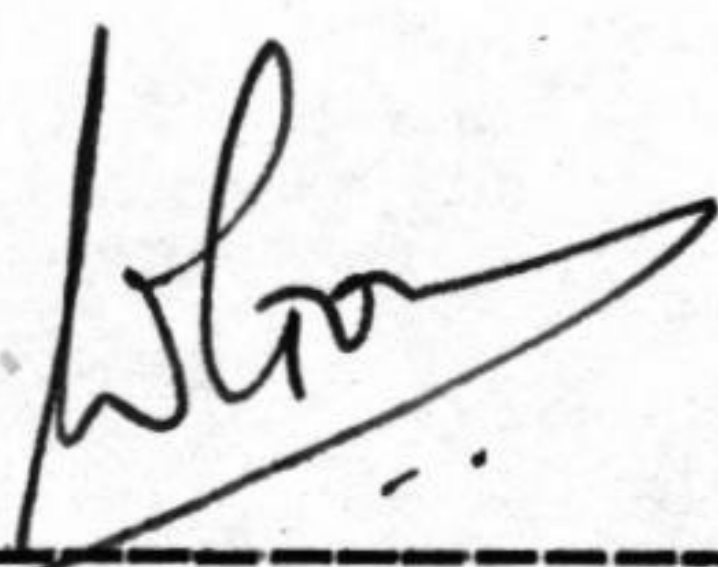

Cont'd ..2/..

4. Septic tank and soakpit complete including external plaster.

Comments

If it is decided to pass the sewage disposal pipes for unit 1 through the foundations it is strongly recommended to use protection sleeves and packing round the pipes at points where pipes pass through foundation walls. This would help prevent damage to the pipes should there be any settlement movements at some future date.

Yours faithfully,
for NORPLAN A/S (T) BRANCH

C.W.GOMES
Projects Engineer
