Re: Accident of 4th August, 1988 by car registration number: TZ 70648.

It was in the morning about 10.00Hrs. I had two passengers, one was Cde Dan Tlome and the other was Lucky Carpede. When we left the office for Mazimbu, Morogoro.

On our way, at Mlandizi a white land-cruiser was driving very close behind me. I told my passengers that I did not like the closeness of the cruiser behind us. I picked up speed for sometime, until we got near Chalinze about 110Km away from Morogoro. It was then that I realised that the cruiser was again too close behind me. It then started to rain.

I indicated for it to pass, but it did not. The driver was a European I accelerated again for about a kilometre. I suddenly saw a pothole. I stepped on my brakes and looking at my rearview mirror, I saw that the land-cruiser was still too close. I indicated and shifted to the right side of the road. As it was raining I was unaware of a pot-hole on the right hand side of the front wheel.

I went into the pothole and lost steering-wheel control and the car skidded and ultimately faced the direction where we came from. It went out of the road and slammed into a tree, a little out of the road. It hit the tree with the left rearside. We went to the police station to report the case. A docket was opened, the car was tested and a certificate issued thereafter. I gave the certificate to the transport department on my arrival in Mazimbu and explained the situation.

Yours sincerely
