Subject: Fomer AET student

Dear Mohammad.

I think you are exploding this email from me But first 1 1111151522) how glad i am to have Men forced to nuke contact with you. I remember our many meetings in various parts of Africa as well as London with very great pleasure. I do hope you are well and have interesting things to do. My last two visits to southern Africa have been to Swaziland and Lesotho to do research jobs for Save the Children there. Please do tell me when you are up to it. My main involvements are:

with a Horn of Africa organisation to wait as researching in relation to Refugees in the UK. Elaine Unterhalla: and

late hovers' working on a project to research the attainment of girls in public C, '(UYL illaliGD.S in southern African

countries. Whether anything will come of this, or we will go, the money is Zimony's guess. However the reason I am writing is because of a former AET student by the name of Peter Dlmni. I had been a

member of the ANC for a long time, and from LHL Mints 2 have, he worked at SOMAFCO for a time. He; rimmed an

English girl and they had two children - possibly 11m - children here. They were planning to move back to South Africa last

year. However, tragically, he was killed in a road accident in South Africa.

His widow then applied to get 2% pension which I understand is available for those who were in the liberation movements for 5 or more years Peter actually lived in South Africa until the time of the Soweto riots in 1976." -

and was in the ANC for over 10 years. However the pensions, people say that there is no record of him and

have asked for evidence.

It occurred to me that you might be able to help in this, particularly as he had but a small pension according to the records.

I heard of an interview with him from 1992 to 1995 He eventually ended up in the UK in 1997 having fallen out with

the ANC. However he was always very quiet about that as well

I think it would be right that he; you go! she is a .. although it is probably

not worth that much in the UK. I

think she feels that, Peter had spent a lot - he had been part of 3.11: group of ANC guerrillas. who went from the border to

Rhodesia in 1970 for example to buy arms for you can do or any suggestion this year. can make. would be, fully

received.

Wim LHL 3mm) wishes.

Rees
