SOLIDARITY WITH THE STRUGGLING MASSES OF SOUTH AFRICA

The majority of South African people are fighting for their rights to self determination. The political content of this struggle is for the United, Democratic, non-racial South Africa based on the principles of majority rule, and to restore the right of the vast majority of the people who have been kept under servitude by the white supremacist regimes.

Under the leadership of the two methods of revolution. ANC and SACP the struggle for national democratic revolution has now reached new heights. The willingness of the people to sacrifice for the transfer of power into their hands, increasing use of revolutionary violence by the masses of the people in response to the reactionary violence of the enemy signify the revolutionary upsurge that will not be stopped whatever the enemy does.

Despite the use of excessive oppressive methods by the enemy the people are fighting back. Day by day, South Africa is becoming ungovernable, the apartheid is made unworkable, and the organs of apartheid regime is striped apart.

Fade with prospect of victory within the craft, the masses of people are drawn into the struggle and engaged in heroic action against the enemy.

Inspired by the heroism of the struggle millions of people. throughout the world have joined the ranks of anti-apartheid movement. We, the people of EELAM, who are opposed by the chauvinist Srilankan government, with the help of South Africa and Israel backed by the American imperialism joint the ranks of the progress and peace loving people of the world to step up the campaign, for the isolations of the Pretoria regime. We step fastly stand by the struggling masses of South Africa.

The people of EELAM inspired by the heroic struggles of the oppressed people worldwide and by the revolutionary practice of the great freedom fighters like NELSON MANDELA and MOSES KOTANA are fighting against the institutionalised oppression of chauvinist Srilankan regime for their rights to self determination. The political content of which is the establishment of a statehood of their own. The Srilankan government is backed by the South Africa. South Africa support Sri Lanka with the military hardware and

training. South Africa and Israel help Sri Lanka to institute a sinister strategy of demographic manipulation as it has practiced in South Africa in the name of Bandustans and the Israel in West-bank Gazastrip to contain the revolutionary struggle. In the strategic area Trincomalee alone people from more than 32 villages have been evacuated forcibly to make way for the colonization. In furtherance of this policy in furtherance of this strategy Passlaws and Security zones were introduced. Yet, people are struggling against the chauvinist and day by day 'gaining confidence and control.

Our struggle is not only against the chauvinist Sri Lanka but also against South African interference in Sri Lankan affairs. Our struggle is against a common enemy - imperialism.

Victory for EELAM is the victory of struggling masses of South Africa.

Victory for the majority in South Africa is the victory of the people of EELAM - EELAVAR.

On behalf of the struggling masses of EELAM - EELAM

REVOLUTIONARY ORGANIZATION (EROS) hail the struggling masses of South Africa and in solidarity join the ranks of many to fight against apartheid.

EELAM REVOLUTIONARY ORGANIZATION .

Issued by committee for the Promotion of understanding of Tamil in Sri Lanka. (C.O.M.P.T.I.S)
