 Reference : implementation of mirror function

Dear Toine,

I hope you are doing fine! We had a meeting of Contactpersons Mirror Function of the Netherlands political parties two weeks ago and discussed the outstanding mirror function projects for 2000. The ANC will be able to execute mirror function projects as part of project NZA 2012 as agreed upon, there is also an amount of NLG 29.479 of drawing rights available. Herewith an overview of the mirror function projects I still have in my current files. If there are more proposals on mirror function projects, please let me know:

- **ANC Sub-Committee on Archives:** the Contactpersons are enthusiastic to prepare a programme on archives. They already have thoughts about different organisations (in Dutch: Documentatiecentrum voor Nederlandse politieke partijen, Groningen; Katholiek Documentatiecentrum, Nijmegen; Rijksarchief) the delegation would have to meet. Different political parties will participate in the programme, PvdA and VVD will jointly coordinate the programme. The Contactpersons suggest a programme of 3 to 4 working days the end of September for 2 ANC-representatives. They will distinguish archiving on national – and on local level. In preparation they will submit information in short about the archiving procedures of their party. If you are still interested in the project, please submit a project proposal (in which you can use the above).
