Dear Comrade

Enclosed find the report on children in prison requested by the delegates attending the National ANC Welfare Policy Conference in Cape Town on 29 - 31st October 1993.

The situation is serious and needs immediate attention. I would like confirmation of the meeting with the Minister of Welfare which was mandated by the delegates attending the National Conference. I have had a phone call from Dr Joos Hattingh, National Health and Population Development asking when we will be meeting with the Minister. He says they are most anxious to meet with the ANC Welfare Department.

I trust that the report gives some indication of the seriousness of the situation facing children in prison. We need to lobby for immediate action.

Yours sincerely

Russella McKay
