

5th August, 1988

Dear Comrade Stanley,

Firstly we have requested the all the graduate students who have been accepted for internship and experience by SAAEP should write to SAAEP individually accepting the offer. From a letter received recently from SAAEP we understood that this has not been done.

Representatives of SAAEP are due to arrive in ESAMI on 21-8-88. It is necessary therefor that on receipt of this letter, these letters must be immediately be sent so that SAAEP can finalize the arrangements as most of them are due to start their programmes in the UK the beginning to mid- September.

They are as follows:

(A) A twelve weeks Graduate \industrial Formation course followed by a twelve week Graduate Project Design and Manufacture Course. (Followed by a term of experience) at East Warwickshire College.

Joseph Mukwala
Israel Sesoko
Khaya Dlamini
Leo Dube

Phakamile Nokwe.
Tahatninga Shope
Nduduzo Fihlela

(B) Training Programme in Distribution Engineering with British Electricity International.

Thabo Mahlatsi

Andile Njobe

Simon Manana

(C) Programme in Engeeriung Practice in Mechanical and Electronic Engineering at Abington College.

Daniel Mafoko will proceed to do a course in telecommunications management with British Telecoms.

Michael Msimang - further course still to be arranged.

(D) It is proposed that Andrew Nhlapo undertakes a year National Diploma in Farm Management at the British Burshoop College of Agriculture. The proposal for Tom Zwane and Nceba Ngana is for them to do an M.Sc. course in Tropical and Sub-tropical Horticulture and Crop Science at the Wye College.

I have already accepted on behalf of the three comrades but

2.

would like to get their reaction by return of post.

(E) Silas Shiburi who is in Mazimbu is to be attached to the Leicester County Council and Transport Department.

Representatives of the SAAEP who are coming on 21-8-88, are the same as those that interviewed the comrades. Their mission is to monitor the group for both from the academic and social level to see if they are responsible adults who can be sponsored to study in foreign land. Their behavior is therefore important.

They must not say that they have not been warned. I repeat, each of the above except in (D) must write individual letters to acceptance to SAAEP. Those whose names do not appear on this letter should not panic. It only means that arrangements have not been finalised and will hear in due course.

Amandla ! Maatla !

.....

M. Piliso.

DIRECTOR.
