1.

6.

During this week we will remit to the formerly agreed bank account the sum of i16,000,000 or R296,296,29.

. These funds come from the Nelson Mandela Freedom Fund (MANFREED).

. As agreed previously, 30% of the collected funds, excluding the above, will be channeled to (1) Education

(ii) Food Production

(iii) Children

(iv) Women

(v) Ex-political prisoners

(vi) Self-help and brick making projects.

These areas have been selected so as to diversify assistance from Japan and help draw many people's attention to the community needs of our people.

. We have launched a campaign "Thusang Isizwe" on June 1, South African Childen's Day, to highlight the dire needs of our people and the devastating impact of Apartheid in our oppressed communities.

. We will continuously inform our project department Head-office about the project funding through our Japan Mission and through local NGOs.

I request permission to use some remaining funds from MANFREED to purchase  
300

a ticket to our July Conference.

7. I received a letter from Mr. J.C. Rees, Organiser of New South Africa

9

Housing Association. In March, I discussed this with Mr. Gabriel Mokogo when

A

he Visited Japan; Our mission, with your permission, can help the association to realize some of its objectives.

8. The government of Malaysia promised to send a team of Housing experts to South Africa to assess our housing needs. Surely Cde. T.G. still remembers. One thinks that this proposal should be discussed with the New South Africa Housing Association for implementation. Await your reply.

. I hope we can discuss further some of the above issues in July at our forthcoming Conference. I plan to come early so that I can visit the grave of my daughter who died at birth on March 05, this year in Gaborone.

Amandla!
