r" BOTSWANA DEMOCRATIC PARTY  
RESOLUTIONS

BOMASE

1. That the Abortion Bill presently being discussed nationwide be delayed while (1"

Batswana are being fully briefed and educated on it.

That the Botswana Government be asked to negotiate with leighbouring countries, in particular Zimbabwe for better prices for livestock which stray accross or otherwise cross into such neighbouring countries. The prices of P900.00 per beast and P70.00 per small stock e.g. goat is suggested.

That Headteachers, like all other civil servants be transferred lfter every three years in order not to allow them to get too used to the area and neglect their duties. Further that Government device a way of circumverting the problems of school groupings which usually hinder such transfe 8.

That in view of the fact that our job market is presently flooded with expatriates and in view of recent Governmentâ\200\230sfefforts to train more local personnel and equip Batswana with skills the following steps be undertaken before expatriates are engaged :

a) jobs be fully advertised in the press to attract Batswana applicante if any;

b) that no renewals be allowed on expatriate contracts where Batswana who are qualified to hold post can be found;

c) that the Immigration and Labour selected Boards be constituted with men and women from varying work spheres and are fully equipped to decipher worthy and unworthy expatriate employees;

d) that Batswana understudying expatriates should be identified, informed and their progress on the job evaluated by persons other than expatriates being understudied .

That in order to curb misappropriation of FAP funds administrative boards be formed at regional level to monitor on a regular basis the management and utilisation of such funds.

That members of the Central Committee of the Party promptly visit those constituencies which do not perform well at every election to review the Party membership and enthusiasm among people.

That there be introduced an Act of Parliament in Botswana to deal with â\200\234 â\200\234

indiscriminate littering by making it illegal to litter and punishing offenders accordingly.

That the Department responsible for the construction of rural roads/feeder roads be asked to widen somewhat as the present format is too narrow for two cars to pass one another, which results in many accidents on these roads.

We note with concern the unacceptable behaviour and attitudes of government officials in general towards members of the public.

Specially, we y: note that, as stated by the 1982 Presidential Commission of Economic Opportunity, there is widespread resentment of Government officialdom, based on the feeling that officials are " a law unto themselves" and that complaints about inefficiency delay and malpractices are useless since officials are judge and jury in their own case. We believe this is an extremely serious problem and that there is indeed a widespread tendency among officials in all branches of government to forget that they are servants of the public.

To this end South East Region moves that the election pledge as contained in Chapter 12 Paragraph 8 of the 1974 Election Manifesto be implemented without agdelay.
