Moses Matebesi  
Robert Conco

Place: Logistics Office

Time : 2,45pm.

Comrade Peter ~~xx~~ reiterated his earlier report about comrade Madlokovu's position as the head of the department of Logistics. He emphasised the advantages of accounting in time to those given money for purchases.

About ethical conduct of the logistics men, he highlighted honesty as the basic requirement; adding that, they must by no means allow a situation where they are seen by other comrades as a privileged group. "When there is no money You should not be seen smoking or eating when other people have nothing".

Comrade Madlokovu expressed concern about the shortage of transport.

Comrade Peter said, though this is an obvious problem, he would like to appeal to all the people to continue making some sacrifices, if the situation demands.

Comrade John raised the question of a goods shade as there was a talk about a shipment of material from abroad. Comrade Peter promised that the chief Rep. and comrade Madlokovu would attend to that.

Comrade Mose came up with the question of supply to Namaacha. An assurance by comrade Robert that attempts were being made to solve it was accepted.

On the same question of supplies comrade Peter stressed that nobody must be given any supply without the knowledge of comrade Madlokovu.
