Mr. Zwelakhe Mankazana  
ANC Regional Project Dept.  
c/o NPA  
Dar es Salaam

Dear Zwelakhe,

*In part the meeting*  
I was surprised I didn't meet you in Dakawa during my last visit, especially because I'm going back to Italy on the 24th of September.

As planned, I held the meeting with the Responsibles of the Dept. of the Manpower Development, Mr. Keagile, and the Scholarship Dept., Mr. Lichaba, about the issue of the scholarships provided by the COSPE project, but they had not prepared, as agreed, either a detailed proposal on it or the list and the number of the women who were granted scholarships, but were not supported in their living expenses. They promised me they will send to COSPE a proposal not later than the 1st October. I urge you to look after this sector, which is a relevant part of our project to all effects.

I'm deeply concerned of the fact that I never met the Women League during all my long mission in Tanzania, in spite of my repeated requests: the Women League did not attend even the above mentioned meeting on scholarships.

Luciana told me in our last phone communication she is confident to obtain in a short term the answer from the EEC. We will let you immediately know of it.

After that COSPE and ANC have to sign the Protocol Agreement already approved by the two parties. I suggest to use - for speedy communication- the DHL between Tanzania, South Africa and Italy.

As agreed with Mr. Chiliza, I leave to you my CV form and the documents to process my work permission in Tanzania. This could allow us to shorten the time of the effective implementation of the project. *Immigration status.*

In my meeting with Mr. Madlala we agreed that ANC start to look for the personnel to be recruited locally by the project. About the maintenance technician I have already made some attempts to find him and I made some suggestions to Mr. Madlala. We didn't fix the amount of the salary but, as included in the agreement, this must be agreed by both of us.

Immediately after my arrival in Italy, COSPE will start the recruitment of the experts, who will be needed in the trades in the second half of 1992, as agreed among the Principal, the Finnish personnel and me.

In the first/ second week of October, the Finnish senior instructor in Leather will make a stop-over in Italy to proceed with the choice of the machinery and the raw materials needed by the trade.

I must stress my concern for the Leather Factory: in fact, it is still closed and not available for the courses, in spite of your confidence that this issue would be solved in the present week.

As you know very well, that severe inconvenience could affect the possibility to implement the project.

I would like to remind you that the EEC Advisor in charge will be back in Tanzania in the first week of October and he will certainly come to visit Dakawa and the VTC.

Let me remind you some items that you or other ANC members promised me; please, ensure their prompt delivery to me:

- list of the prices of the Mazimbu Furniture Factory (I need it when buying material in Italy to estimate in detail the expenses for the equipment of the project)
- detailed pictures (internal and external of every room) of the present conditions of the two Lather and Garment factories (expenses for film and printing will be covered)
- proposal on the scholarships

I stress the need to be informed timely on the various issues related to the project, with special reference to the time schedule of the repatriation, the Leather factory situation, the local personnel (especially the technician in maintenance), the students' situation.

Please, do your best to ensure timely communications with COSPE. COSPE will reimburse the ANC for the communication expenses (DHL, telex, fax ) at the shortest time (supported by original receipts).

I will do my best to give you a timetable of the possible implementation of the project at the shortest term.

I would like to have the chance to see you once before my departure. I wish you all the best.

Yours sincerely,

Elisabetta Cirillo  
Project Officer
