THE SECRETARY GENERAL
ANC (SA).

18.II.1980

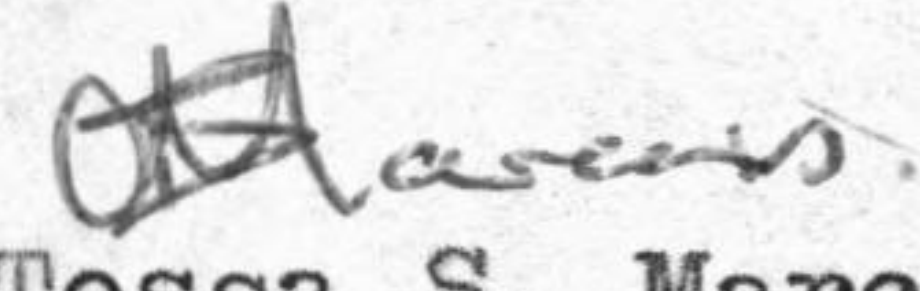

Dear Comrade Nzo,

We request that permission be granted Beverley Marcus to travel to attend film festivals and on study tours with her school during the remainder of her course at the film school. The reason why we request such general permission is that frequently she is only informed a week prior to a festival that her film has been selected to be shown there and that she therefore has the right to attend. In such a short space of time it is not possible to contact you and receive a reply. Attendance at such festivals is considered part of the school program. Study tours, organised by the school, for example to Vienna, also are so arranged as to be without a specific date. As the matter now stands, for example, the trip to Vienna has been impending for the last 8 or so months, but so far permission from the Ministry (and therefore funds) has not been granted. The trip is still "on" and is waiting permission. As you can see it is difficult to stipulate specific dates.

We hope that this request meets with a positive response,

Yours Sincerely,

Amandla!

Tessa S. Marcus
