Dear Cde Jerry,

It's me Wilson, who was working in the DIP in

Lusaka, remember? Well, ode Jerry I am now home, oo-ordinating

Community Video Education Trust (CVET), a non-profit community

based organisation with a long history of servicing the video

production and training needs of local communities in the Western

Cape. In some they were also complementing our work in Lusaka.

We were talking about equipment and funding and I .sort of

suggested to the odes here that we also send a proposal to you so

that you could help us by floating it with some companies and

contacts over there in Japan. Please stress to them that they

should ignore the rest of the proposal but only pay attention to

our equipment request. The equipment items and costs are listed

in the document. We are also willing to take even donations of

good second-hand equipment.

When are you coming back? If you do and are in Cape Town please

call us at CVET or call me at home Tel: (021) 624639 in Langa.

Amandla!
