Prof. J. Gerwel,  
The Rector,  
University of Western Cape,  
Belville.

14th April, 1992.

Dear Prof. Gerwel,

Following requests for ANC support for Public Health School proposals, the Health Secretariat of the ANC comprising representatives of regions, has appointed a Commission to look into the important and complex issues involved.

The Commission comprises the following people:

1. Dr. Neil White, Dept. of Medicine, Groote Schuur Hospital, Cape Town.
2. Dr. Khorshed Ginwala, Dept. Community Health, University of Natal, Durban.
3. Stephanie Kemp, Alexandra Health Centre, Johannesburg.

We would appreciate your co-operation with the Commission whose tasks involve not only finding out what the proposals in the various regions are, but also what the implications are nationally now and under a future government.

The Commission will be visiting Cape Town on 28th/29th April and should like to interview you, Dr. Olive Shishana and Dr. Bridgit Strachan as well as others from outside UWC. If there is anyone else you feel the Commission should speak with, we would welcome your suggestions. Dr. White will contact you to make detailed arrangements.

Yours sincerely,

mu. .\_.V\_\_...

r. Ralp Mgijima  
Secretary for Health.
