Thanks a letter to me from you. I am glad to see your letter. Mrs. Miriam Tlali. I promised her that I use Barbier calendar and I translate "AMANDLA" to Braille letter. Now I do not use Barbier calendar. Pardon me. But I translate "AMANDLA" to Braille letter certainly. If come off well, I translate to all languages of Braille letter. There is

not response by Mrs. Miriam Tlali, then I use

Mr. Utali. Matsale. Konani. Umeme to my international pen name. I like Mr. Nkosi. Mr. Nkosi had not a satellite. Isn't it? If so, we must evolve democracy with about 200 spaceones. Our age's democracy is directly elect to U.N. secretary general, world bank's president and international court justice by 5300000000 population with photographs. But don't give a vote to apartheid white people.

Isn't it? This is global conscience revolution. I like ancient Spartacus bund. Be careful. Nginyabonga.

Yours sincerely.
