Dear Comrade David

We thank you for your letter of 12 May 1986 and. take note of the points raised therein.

We thought that by now you would have finished your findings, but for the reasons stated in your letter I am afraid you will have to remain a little longer in that area. All this is within the context of the Revolutionazy Cadre. I have no doubt in my mind that you will take this With a smiling face.

I hope you have already finished with Bobby's accounting. The remaining people you have to deal with are Mhlope and Indres.

At the moment we cannot assist you on the question of signatories. I

do not understand why the Chief Representative is not one of the

signatories. That will have to 'be looked into in due course.

Please find enclosed a, copy of "Travellinguulowance Guidelines".

I am bothered by the amount of money that is given to those who travel.

It is shocking.

' : Other matters which you raised in ysur letter will 'be dealt with by

" Comrade Hanoi and myself when we visit the area before you leave.

4. I have been in Stockholm and I' had the oppomnty to meet your wife

who was eager to see you. She is saying she is getting old. and you

are getting old and that you want to expand your family. I have awed

that she should see you for at least a. month before we sort out things.

Best regards.
