THE OFFENSIVE!

Since the beginning of June, more than one-hundred trade union, youth, community and other leaders have either been detained

or banned by the Botha regime At the meeting convened by various democratic organisations in July, the participants correctly noted that this serves to show that the enemy suffered a serious setback during the anti-white Republic campaign. What is the extent of the

victory we have scored? Below we discuss the

significance of the May-fune Campaigns,..

The entire democratic movement of our country has just emerged from a hard-fought and yet victorious battle against the regime of Botha and Malan. We have emerged from a battle of principle, a contest between the present criminal system of white domination and the future the people's aspirate society based on the ideals to help the enemy just enshrined in the Freedom Charter at his strength to tame the oppression, exploitation, and liberation.

rule of terror. As we all know, subsequent upon this event were our days* the 16th anniversary of June 16th and June 26th, South Africa Freedom Day which we had to observe in a fitting manner, Botha's threats and violence notwithstanding!

Our successful commemoration of the 5th anniversary of June 16th through a national stay-at-home, school boycotts and mass meetings is a fitting reply to Botha and his cohorts who had unleashed a reign of terror to intimidate us from such actions. Equally fitting a reply to this reign of terror was our successful observance of the 26th anniversary of the adoption of the Freedom Charter throughout Africa, for the realisation of the "reform programme"1, to reject the enemy's efforts to divide us on national, racial and tribal grounds and to present our struggle as a Soviet-inspired conspiracy, to reject white minority domination in apartheid forms. demand justice. end the workers.
