

AFTER securing a massive vote of confidence within one organisation, a politician promptly announces he plans to lead another. It is hardly surprising that Chris Hani's latest move has sparked furious press speculation.

On a request from the SA Communist

. The Party, the charismatic Umkhonto we-

% Sizwe chief of staff looks set to move full time into the SACP as assistant to secretary-general, Joe Slovo. Sources

believe the party's congress in December may confirm him as Slovo's suc-

cessor.
If the African National Congress

agrees to release him and it seems likely he will relinquish his positions both in MK and the ANC's full-time national executive committee, the National Working Committee (NWC), while retaining his NEC seat.

Following hard on the heels of the

Alas, this time, the banal reality
g the truth. By DREW FORREST

w ECK Ly ic
-ANC's 'rflay[ional coï-erenceï-which
Hani polled more votes than any other
candidate in elections for the organisa-
tion's leadership, the move has raised
eyebrows. -

Some commentators have interpreted it as a sign of the growing distinction between the ANC and the SACP and of the diminishing role of MK in the run-

09-iS /o8B
up to negotiations,

A symmetry between his departure and the demotion of Pretoria's arch-rival, defence minister Magnus Malan, is also detected. Hani is even seen as having been sidelined. Other observers believe longstanding tensions between Hani and MK's commander,

- Joe Modise, may be a factor.

The reality, SACP and ANC sources unanimously confirm, is much more humdrum. While conceding that pressures within the ANC for greater dis-

tance from the party are growing, they

insist this has nothing to do with the issue.

They stress that the initiative came from the SACP, and that in view of Hani's huge popularity, particularly with militant youth, some ANC leaders were unhappy about releasing him,

There were already complaints about Slovo spending too little time on party work because of his ANC responsibilities, said one source. Now Slovo is on meNWC who else is the one to take over?

Elaborated the SACP's Jeremy Cro-

NKATHA members who President FW de Klerk's claims were
raised by the South African Defence Force as security guards for
KwaZulu leaders were involved in
the assassination and attempted
murder of anti-apartheid activists,
Startling evidence, based on in-
side information supplied by dis-
idents in the unit, shows that its
members were trained in urban and
rural warfare by the SADF and
then used by Inkatha officials to con-
duct hit squad missions against Al-
bion National Congress supporters in
Natal,
These hit squad activities included
operations ordered by Sarmuel Jamile,
senior KwaZulu cabinet member and
notorious Inkatha warlord who was
convicted of murder this year.
These revelations are based on infor-
mation supplied in sworn statements
< Inkatha members trained in Nami-
bia by the SADF, The information has
been cross-checked against the court
word of Jamile's controversial mur-
der trial,
Two men who were on Jamile's hit
squad, Aubrey Nyembezi and Richard
Mkhizi, survived attempts by the Inka-
thla leader to assassinate them. Their
evidence in the Inkatha leader's trial
supports the claims that SADF-trained
men were used in third-force type ac-
tivities on behalf of Inkatha.
"The disclosures have serious impli-
cations for the credibility of the gov-
ernment in the wake of the Inkatha
revelations. They directly contradict De
Klerk's claim last week that members
of the 'Y' unit, a paramilitary unit were
trained only to serve as security
guards for KwaZulu government of fi-
nancially independent
the Weekly Mail is in possession of
names of other officers allegedly in-
volved in the unit's covert activities,
well as registration numbers of ve-
hicles allegedly used by hit squads in

vudence in the Inkatha leaderâ\200\231s triat
Jpports the claims that SADF-trained
wen were used in third-foree type ic-
Â«ities on behalf of Imkatha,

The disclosures have serious implications for the credibility of the government in the wake of the Inkatha scandal. They directly contradict De laet's claim last week that members of the Inkatha paramilitary unit were trained only to serve as security forces for the KwaZulu government of Natal.

The Weekly Mail is in possession of details of other officers allegedly involved in the unit's covert activities, as well as registration numbers of vehicles allegedly used by hit squads in attacks on opponents of Inkatha. These details cannot be published immediately as they could lead to the disclosure of sources, who fear for their lives, being identified.

De laet said last week that the only part given to Inkatha, apart from 30,000 channelled to the Zululand movement, was a unit related to training by the SADF in 1986. Of some 150 Zulus, it is a view of security and protection.

But members of this group, trained at a covert SADE base located in the private Sirip of Namibia before the Territory became independent, say they were trained in offensive guerrilla warfare.

Under their return to KwaZulu, some members of the unit were posted to security bases in the homeland run by the KwaZulu Police (KZP) officers; it was in these bases that they carried out attacks on anti-apartheid activists. One of the bases has been located by The Weekly Mail. (See sidebar).

Initially the special Inkatha unit was formally absorbed into the KZIF, De laet said. List went, a member of the Inkatha team says. Why asked by Jamile to kill two of the S minister's opponents in

Counship of Clermont, near Durban - 10 each for R5 000 and a

KwaZulu Government
buildings should be seen
in the context of this
background.

The State President in
his statement has confir-
med that the Govern-
ment was aware of the
ANC's plans at the time.

The IFP's response to
the SACC's request to
visit "training camps".

In a statement issued by
the SACC on the 12th
August, the General Se-
cretary, Dr Frank Chika-
ne, inter alia says: "In the
light of the latest revela-
tions of training camps
where covert activity by
the security forces in
conjunction with the In-
katha Freedom Party has
been taking place,..." and

asks the State President
to make it possible for
the SACC to conduct on
site inspections of va-
rious camps.

I want to state emphati-
cally that the IFP was not
involved with the security
forces or with anybody in
covert training. Dr Chi-
kane is drawing a conclu-
sion he has no right to
draw. The State Presi-
dent did not say that 150
IFP members were trai-
ned in any camp. The
150 people who were
trained were trained on
the recommendation of
the KwaZulu Police and
the IFP had no part in
it.

In view of what the
SACC has said, as Chief
Minister of KwaZulu, I
will welcome any SACC

29|

delegation that wishes to
carry out an inspection in

Mkhuze - indeed I am prepared to arrange an escort for them.

I must say that the whole idea of the SACC going there illustrates the double standards used in dealing with me and the IFP. There was no similar request by the SACC to the President of the ANC to inspect the Quatro camp and other ANC camps. There is documentation from people who were at Quatro about torture and murder, and I have not heard that the SACC has tried to verify the statements made by Mr Thwala and

other people who were

there.

Dr Buthelezi speaks onâ\200\231
Mkhuze cam

-15-1%F Avavust

These things happened long before the ANC and other political organisations that were banned were unbanned. It is therefore a blatant lie to say that these young men were trained in order to carry out attacks on members of the ANC/SACP/COSATU alliance. It is ridiculous to suggest that we could pit ourselves against the army of the ANC - Umkhonto weSizwe with 150 young men. They were trained to protect us as individuals in the Cabinet, His Majesty the King, and to protect the government buildings which belong to the Zulu nation. Again a fact con-

firmed in his statement

on the 30th July by Presi-

PS

dent de Klerk as the
Head of State, at his
Press Conference

If Dr Nelson Mandela
and the ANC are serious
about peace, they will
not go out to become pe-
ace wreckers at every
possible opportunity.
Some of the atrocities
the ANC has committed
have been really unspe-
akably horrible, Umk-
honto weSizwe, which
claimed responsibility for
those atrocities, is in our
midst today, Dr Mandela
and the ANC's National
Executive should burn
with shame in remem-
brance of what these
atrocities were.

I call on Dr Mandela and !
his National Executive
now to cease thceir atro-
cious double standards. |

|

NEWS BACKGROUND

Dr Buthelezi

A Durban newspaper last week made the most serious allegation that the Inkatha Freedom Party had established a "secret base" at Mkhuze at which young people were trained as hit squads to commit violence against political opponents.

The report made very little effort to inform readers that the African National Congress had for years sought to destroy KwaZulu and had actively and publicly encouraged people to murder IFP leader, Dr Mangosuthu Buthelezi, and other members of the IFP's Central Committee. :

These calls to murder and assassination have been widely reported all over the world and transcripts of British Broadcasting Corporation tapes monitoring ANC broadcasts calling for the murder of Dr Buthelezi are readily available. Yet, the Durban newspaper remained silent about these facts

Why?

When Dr Buthelezi issued a statement in response, the newspaper printed a severely truncated version of the statement. It omitted a further claim of an ANC threat to assassinate Dr Buthelezi. Why? The man who told Dr Buthelezi about the threat, Mr Londa Shem, himself had been assassinated.

Reprinted below is the statement issued by Dr Buthelezi. It is reprinted in full because of the importance of the issues at stake.

The charge

Allegations purporting to be based on affidavits have been made in the media that the Inkatha Freedom Party trained members for hit squad duty against the ANC/SACP/COSATU alliance and that they were trained at Mkhuze.

The answer

The 150 young Zulus the State President referred to in his broadcast address to the nation on the 30th July were selected by the KwaZulu Police Force for training in V.L.P. protection and in the protection of KwaZulu Government buildings and property.

The IFP has never ever trained one single person for hit squad activity and has never, ever trained anybody for any killing against anybody or against any organization anywhere.

â\200\230The circumstances de-
manding the training of

young Zulus in VIP pro-

| tection

By 1985 there had been a
dramatic intensification
â\200\234of ANC revolutionary ac-
tivity and it was attemp-
" ting to translate the ar-
â\200\230med struggle into what
â\200\230the ANC called a pe-
. opleâ\200\231s war. There were
â\200\230calling for no-holds ba-
rred violence against
â\200\230South Africa.

It was in these circums-
tances that the KwaZulu
Podite finally decided
that effective action
should be undertaken to
protect KwaZulu VIPâ\200\231s
from the kind of attacks
â\200\234that revolutionarics were
boasting that they werce
going to make.

The direct threat

{In 1985 I was asked by

the late:Reverend Londa |

â\200\230Shembe o send my Mi-
â\200\230nister of Works, Inkosi
| S.H. Gumede, who is his

brother-in-law to take

â\200\234delivery of a letter which
â\200\230the Reverend Shembe
stated was important and

had an urgent message

| for me,

on

amps

3 wsiih

In the letter which,
ceived, the Rev
Shecmbe stated th
someone who suppc

the United Democr

Front, he had recently)

tended a private meeti

of the ANC in Swazilan

He stated that at this
meeting , a Zulu-

speaking Coloured member of the military wing of the ANCâ\200\231s Umkhonto Wesizwe (the manâ\200\231s name was given - Editor) had told the meeting that [keep on accusing them of wanting to assassinate me. The man then stated that they, the ANC, would now oblige me by assassinating me. He stated that a Unit of Umkhonto Wesizwe was being trained to cross the border to assassinate me and to destroy the Kwa-

Zulu Government buildings in Ulundi. The other

witness to this was

(Inkosi Lindelihle Mzimela. The late Reverend

' Shembe came in person

|

|

| to KwaPhindangenc to

confirm all this. v

SILANGA, AUGUST 15-17, 1991

|
{

Confirmation of the threat and police response

Later on this plot was confirmed to us through our intelligence sources and the then Acting Commissioner of Police, Brigadier S.M. Mathe, had to select 150 young Zulus for training in VIP Protection Services. I was told that a Security Company was going to train them for us. After

they were trained, the Commissioner of Police and I decided that these young men could not be retained as a unit. They were then taken for training as policemen. After training they were integrated into the KwaZulu

Police Force. They were then allocated to me, and to other Ministers and Deputy Ministers, and some were to guard our government buildings which were also under

. threat in terms of the
| 'ANCâ\200\231s Umkhonto We-
sizweâ\200\231s plans. ;

Temporary accomoda-
tion: for VIP protection
trainees

As Police Barracks in Ulundi were full, arrangements were made to house them temporarily at what is now the Burc-
au for Natural Resour-
ceâ\200\231s Mkhuze Quarantine Camp. This was arranged for the young men while they were waiting for spaces in the Police Trai-
ning College. They were not housed there to un-
dergo any training as far as I know. If such further training as is alleged in the media took place, then I was not aware of it, as these people were already trained when

they were tempora rily

housed there.,

It was reported to the Head of my Department that game poaching by the young men and other unknown persons was ta-
king place on the farm

| which was well stocked

}

with game, and this could account for alleged re-
ports of shooting being

- heard by the local resi-

: dents.

peaks
Mkhu

â\202¬

An emphatic disclaimer

I want to state emphati-
cally that the IFP and I

have never had a private
army or a "hit squad" as
is alleged in the media. |
challenge them to prove !
that we did.

There is not one single
person that was ever ki-
lled or assassinated after
a decision by me or by the
Central Committee
of the IFP, through any
so-called "hit squad". If
there were people
amongst these trainees
who were sent on any
"hit squad" errands, then
I want to state emphati-
cally that I was never
aware of it and I challen-
ge anyone to prove the
contrary.

The ultimate responsibi-
lity for security training
has always rested with
Pretoria ;

. The KwaZulu policemen

and policewomen have
for many years been trai-
ned for us by the South

' African Police at their

1 Police

Now have

W , \P({ii@200\230Ã@200\230Collcgc

in Ulindi which we now.
use our police-
men. :

| LA Ngs

The fact that these young men were trained for us IS a non-issuc as far as | am concerned as most of our senior officials in Ulundi and in the districts of KwaZulu are even now seconded to us by Pretoria. There is not-

hing hanky-panky about

this nor is it a secret.

Armâ\200\231s length dealings with the SADF

I have never condemned those black pcople who Join the South African Defence Force or the South African Police as â\200\234sc11-outs" as some political organisations have done in the past. I know that as South Africans, Wwe are protected by the South African Sccurity Forces. But I have for ye-ars been very cautious â\200\234about how I deal with the South African Defence Force, not because of any hostility towards them, but in an effort to avoid the misunderstandings that are now being conjured up in the media. â\200\230

When the SADF offered us doctors in our Kwa-Zulu hospitals and teachers in our schools, [was put in quite a quandary for fear of this very

misunderstanding. Our

schools on the other hand have not enough teachers to tcach English, Mathematics and Science subjects. The SADF offered teachers in those very subjects and I could not say that children in our schools should rather do without teachers merely because they were members of the SADF. I pleaded in vain that they should not work in our schools and hospitals wearing their uniforms. The SADF refused to make this con-

cession and insisted that

their members should
serve in our hospitals
and our schools in uni-
forms. We had to accept
that position.

For years now I was as-
ked by Foreign Affairs

whether I wished to goto 4

the border to see how
our army serves on the
borders of South Africa,
and I consistently decli-
ned for fear of the same
misunderstanding that
the media is now genera-
ting. It was not because |
did not appreciate the
extent to which as South
Africans we depended on
the SADF for the protec-
tion of the country.

[5 â\200\2317 i~\201gÃ@Ã@gf/

When Battalion 121, the f
Zulu Battalion, was
founded, Mr Oliver
Tambo, then President
of the ANC, asked me
whether I could use my
influence to ensure that
this Battalion was not
sent to the borders.

I told Mr Tambo that
this 121 Battalion was
part of the South African i
Defence Force and not
under us because we in
KwaZulu, in terms of the
1971 Act under which
self-governing territories
were set up, were forbid-
den to set up anything
â\200\234military or paramilitaryâ\200\235,
In terms of that legisia-
tion.

[was approached by the
then Head of the 121
Zulu Battalion in the se-
ventics as to whether I
could not accept being
made the Honorary
Commander-in-Chief of
the 121 Battalion. I ex--
plained to Commandant
Heap that this was not
possible as long as the
121 Battalion was still :
under the South African !

Defence Force, not because I have anything against Zulus who join Battalion 121, but because I again feared that it would cause the same misunderstanding that is

now being generated in the media about the SADF.

s it 2101 o B o it e s et e e e et iy e

Commandant Heap stated that he would then ask His Majesty the King to become the Commander-in-Chief, and I told him that the King will not accept such a position without consulting the Cabinet. I added that if he did consult the Cabinet, it was unlikely that we would recommend that he accepts such a position, for the same reasons that I had given for turning down the suggestion.

I think that this whole furore about the training of just 150 young men for the purposes of guarding members of Cabinet and

KwaZulu Government buildings should be seen in the context of this background.

The State President in his statement has confirmed that the Government was aware of the ANC's plans at the time.

The IFP's response to the SACC's request to visit "training camps".

In a statement issued by the SACC on the 12th August, the General Secretary, Dr Frank Chikane, inter alia says: "In the light of the latest revelations of training camps where covert activity by the security forces in conjunction with the Inkatha Freedom Party has

been taking place,..." and

asks the State President to make it possible for the SACC to conduct on site inspections of various camps.

I want to state emphatically that the IFP was not involved with the security forces or with anybody in covert training. Dr Chikane is drawing a conclusion he has no right to draw. The State President did not say that 150 IFP members were trained in any camp. The 150 people who were trained were trained on the recommendation of the KwaZulu Police and

it.

In view of what the SACC has said, as Chief Minister of KwaZulu, I

will welcome any SACC
; it

delegation that wishes to
Carry out an inspection in

Mkhuze - indeed I am
prepared to arrange an
escort for them.

I must say that the whole
idea of the SACC going

there illustrates the double standards used in dealing with me and the IFP. There was no similar request by the SACC to the President of the ANC to inspect the Qua-

tro camp and other ANC |

camps. There is documentation from people who were at Quatro about torture and murder, and I have not heard that the SACC has tried to verify the statements made by Mr Thwala and other people who were there.

17 7Y

These things happened long before the ANC and other political organisations that were banned

were unbanned. It is therefore a blatant lie to

.say that these young

en were trained in order to carry out attacks on members of the ANC/SACP/COSATU alliance. It is ridiculous to suggest that we could pit ourselves against the army of the ANC - Umkhonto weSizwe with 150 young men. They were trained to protect us as individuals in the Cabinet, His Majesty the King, and to protect the government buildings which belong to the Zulu nation. Again a fact confirmed in his statement on the 30th July by Presi-

the IFP had no part in'

. Executive should burn

dent de Klerk as the Head of State, at his Press Conference

If Dr Nelson Mandela and the ANC are serious about peace, they will not go out to become peace wreckers at every possible opportunity. Some of the atrocities the ANC has committed have been really unspeakably horrible, Umkhonto weSizwe, which claimed responsibility for those atrocities, is in our midst today, Dr Mandela and the ANC's National

with shame in remembrance of what these atrocities were. I call on Dr Mandela and his National Executive ! now to cease their atrocious double standards.
